OBJECTIVE

To obtain a full-time position that enables me to utilize my computer programming, networking and general computer skills that I obtained through my time in my ongoing University studies.

SKILLS AND ABILITIES

- Skilled in programming with Java, able to learn other languages easily
- Able to set up and maintain computer networks
- Has knowledge of system security measures
- Able to work with groups of programmers to solve problems and reach end goals
- High understanding of computer system software and hardware
- Has good analytical skills
- Able to take leadership role, has done so in project courses
- Has effective communication, time management and organizational skills
- Skilled at learning new concepts quickly while working well under pressure
- Bilingual English/Punjabi
- Work equally well independently or in a team

EDUCATION

Kwantlen Polytechnic University, Surrey, BC (Currently in 4th year)

2019-Present

□ Degree: Bachelor of Technology // Program: BTECH – Information Technology

Relevant in-class projects:

- INFO 2413, System Development Project (A+)
 - In this course, students were tasked in groups with creating their own computer-system based project utilizing skills based off the first 2 years of the program. I along with my team, created and presented a subscription management system known as “SubNest”. Here is the full report https://docs.google.com/document/d/1EDdCU-OfD7hqjBp_rhvc-upP38GeolH5V6vwXYfVNAM/edit?tab=t.0#heading=h.gxqfsd8ek0z4
- INFO 3280, Information Technology Project Management (A)
 - In this course, students were tasked in groups with managing hypothetical real-life projects using software taught within the class. This class helped build skills such as time allocation, collaboration, as well as resource allocation.
